

Policy Title: Breast Cancer	
Section: Eligibility	Reference No. SB 080
Effective: January 1996	Revision: August 2018

1. SCOPE

All Breast Screening Centre Staff
Client Services Centre Staff

2. POLICY

Women with a personal history of breast cancer are **NOT ELIGIBLE** for screening.

Breast Cancer is defined as:

- All invasive breast carcinoma, including Pagets disease of the nipple
- All in-situ breast carcinoma, excluding lobular carcinoma in-situ (LIN1/2)
- Primary lymphoma of the breast
- Sarcoma of the breast, excluding benign, borderline and low-grade phyllodes
- Metastatic disease to the breast
- Any other cancer arising in the breast

Rationale: Women with a previous breast cancer are not eligible because of increased complexity regarding the performance and interpretation of the mammogram.

Women with dermal lesions of the breast (including sebaceous glandular tumour, malignant melanoma and basal cell carcinoma), and lipoma are **ELIGIBLE** for the Program.

3. RELATED POLICIES

4. RESPONSIBLE PARTY

Breast Screening Medical Director
